Owner Comments: Gary Jones: "Twizzle is one of those once-in-a-lifetime cows - as a 2-year-old she was square and balanced with a great udder. When she freshened as a 2nd calf 3-year-old she continued to develop and now with her 3rd calf she looks better than ever. This is a great trait of the family, they get better with age and I'm excited to see what Twizzle can do at the shows in Italy this fall... Right now she looks her best yet!"

was purchased by Tom DeGroot, T&L Cattle at expo as a winter yearling, came to the farm following the show and we partnered. She did well as a senior two-year-old and was fresh again late July with her second calf and continues to get better every day. We love her beautiful dairy frame, uphill run and smashing good udder. Ebrill will be part of our string at Madison and is a cow that if she continues to develop could be very special in a year or two."

She has a dream udder, which is so extremely strong attached, she was really young and fresh when she won her class at Colmar, one of the strong transmitting points of this family is the development in frame through to the next lactation which makes it that I can't wait to see how she develops for the upcoming years. Koba 219 is pregnant now to Doorman, our target is to show her next year on the National Show, the NRM"

At the moment she is in flush program, there is plenty of interest in her embryos from all over the World. Beside that we are trying to make some pregnancies as well. Her Armani daughter in Germany looks incredible and was 1st at the show, that's a combination we have done again, furthermore we are flushing her to sexed female semen of the best current RC and R&W bulls!"
